with Frosted Tempered Glass

COMPACT vertical STACKING door

VERTISTACK® AVANTE®

Connect to the outdoors with our VertiStack® Avante® modern aluminum and glass garage door. The unique, compact design stacks sections vertically on the wall above the opening, eliminating the need for exposed hinges, cable or overhead track for a crisp, clean look. Closed, the glass panel door lets in daylight and outdoor views. When opened, the interior footprint extends outside, creating an easy flow during gatherings.

OPEN CONCEPT

Drawing shown with optional spring cover.

The stacked sections require minimal projection off of the wall, so the door doesn't interfere with mechanical, electrical or plumbing fixtures, leaving room for fans, lighting, overhead storage or extended height ceilings. The sections can even be recessed into a ceiling soffit so when the door is open, no one will know it's there.

Clear Anodized
(Color-matched to frame)

*Glass is tempered.

† Impacted rated glass is not available on VSAX/VSAXU models.

Glass available in single pane or insulated (laminated and mirrored glass not available insulated). Panels can be aluminum to match the frame. Glass/acrylic panels may be combined with aluminum panels. Custom glass and colors available. Acrylic windows require special cleaning. See care and maintenance manual.

STYLE AND CONSTRUCTION

- Aluminum frame provides a virtually maintenance-free, long-lasting door.
- Intellicore® polyurethane insulated rails and stiles. (Model VSAXU)
- Section joint seal helps keep out air and water.
- Heavy-duty steel ball bearing rollers with nylon tires provide quiet operation.

FRAME/SOLID PANEL COLOR OPTIONS

Clear Aluminum
(Anodized)

Standard White
(Painted)

Bronze
(Painted)

Chocolate
(Painted)

Bronze
(Anodized)

Black
(Anodized)

Dark Bronze
(Anodized)

Due to the anodizing process, color variation may occur. The use of "Bronze (Painted)" is recommended for a more consistent bronze finish color.

Choose a Color Blast® finish or RAL Powder Coating to create the perfect door. Model VSAXU not available with RAL Powder Coat finish.

OPERATION AND STRUCTURAL REQUIREMENTS

Motor operation required.

The standard VertiStack® operator includes a hand crank kit for emergency use only. The door is supported by a guide assembly attached to the jamb construction. Header support is required for mounting the counterbalance system as is required with any standard sectional door.

For residential applications and interior mount only.

OPTIONAL GLASS

- A variety of glass and acrylic panels are available, including tempered, insulated, frosted and Low-E options available. Glass thickness available in 1/8", 1/4" and 1/2". Tri-wall polycarbonate thickness available in 5/8".

CERTIFICATIONS AND LISTINGS

- Meets UL325 Certified requirements
